

High temperature paste

SILCADUR HTP

SILCADUR HTP (high temperature paste) is SILCA's latest innovation. The paste facilitates the disassembly and assembly of components after a longer production time and prevents the burning in of bolts, hinges and screw connections. Furthermore it is also used for the lubrication of chains as well as movable and sliding parts in non-ferrous die-casting and low pressure moulds.

SILCADUR HTP	
Colour	silver-grey
Solid lubricants	inorganic constituents
Operating temperature	-25 °C up to +1,000 °C
Dropping point DIN ISO 2176	no
NLGI class	1
Transport ADR/SDR	no dangerous good
Packaging unit	Can 1 kg

The properties mentioned are typical values obtained according to the listed methods. Product variations have to be taken into account. The data do not represent guaranteed properties and cannot be used for any warranty claim. Data are subject to technical modifications.
